Subject: Asheville City School Board Appointments

Dear City Council Members,

I am writing once again to encourage all of you to revisit the process of appointing our city's school board members. The ACAE has just provided a resounding endorsement of three very qualified individuals, two of whom have not made it into the interview stage based on the Council's current process. I urge you to open up the field to allow Pepi Acebo & Libby Kyles to be considered and interviewed for the school board. These two folks are known & trusted to parents and educators in our city and would be invaluable assets to the board. Their demonstrated leadership in, intimate knowledge of, & dedication to Asheville's public schools is unparalleled. As a parent, a tax payer and a voter, I believe our school board should be representative of and responsive to the parents and residents of Asheville. And these two deserve a shot.

Thank you for your time.

Sincerely,

Tanya Triber
Parent of a 6th grader at AMS & a 10th grader at AHS
