Subject: Re: Asheville school board appointments

Good afternoon,
I am writing again to ask you to interview Pepe Acebo, Libby Kyles and Kate Brewer Fischer and consider them for appointments to the Asheville City Schools board. It is imperative that community members have a voice, more so than has happened in the past. These three individuals have proven their commitment and interest in ACS through their volunteer work and voices. It is very important to our community and I am hopeful that you will reconsider and interview these people. Thank you very much,
Gina Linville

I have known each of these individuals for years and have seen their interest and commitment to our children and our community.
