Molly,

After reviewing the data, the difference is due to rounding.

That is correct and the total on the change sheet is - 0.13 and here is the mileage difference that the PBRS is showing.

So and as was asked previously, is the difference between the change sheet you submitted and what the system is reflecting due to rounding?

Molly,

The changes to the municipal Street system are included on the sheet that is attached, which I also submitted earlier.

Hello Timothy,

Here is the reason that the certified statement was returned.

The system is reflecting a -.10 mileage change and the add/delete sheet is showing -.013 mileage change. Let us know [ncdot\\_powellbill@ncdot.gov](mailto:ncdot_powellbill@ncdot.gov) if the difference is due to rounding. Thank you.

Also, is the black boarder the corporate limits on the map? It is not indicated on the map legend.

Here is a link to the 2023 PB training guide, that can be found on the PB website, and it is a great reference for the required information.

Hello Timothy,

And good morning.

I tried to call you on my office phone and cell and for some reason the call is not going through.

Do you want to try to call me 919-707-4610 to discuss the CS?

Molly

Ms. Stevens,

I received an email that my Certified Statement and Street Listing are incorrect.

I do not understand what the problem is.

I sent my first Certified Statement and Street Listing on 7/23 and then I realized that the Certified Statement was wrong.

I revised the Certified Statement and resent it on 8/1/23, but I am still getting messages that it is not correct.

I am attaching the revised Certified Statement and Street Listing.

Please let me know what the problem is.

Thank you in advance.
