Often people confuse Human Trafficking with other crimes. It is important to know what is and what not Human Trafficking is. Having an understanding of the definition of human trafficking will better prepare you for identifying the crime.

Human Trafficking involves the recruitment, harboring or transportation of people into a situation of exploitation through the use of force, fraud, and coercion. Forget what you have seen in the movies. As stated before under the kidnapping, the man in a dark hood taking a child to sell on the black market is extremely rare. Most human trafficking that occurs within the US is a domestic, and goes unnoticed. Human trafficking is the business of stealing freedom for profit. In some cases traffickers trick, defraud, or physically force victims into providing commercial sex. In others victims are lied to, assaulted, threatened or manipulated into working under inhumane, illegal or otherwise unacceptable conditions. It is a multi-billion dollar criminal industry that denies freedom to 24.9 million people around the world.

Want to learn more?

This engaging two-day interactive workshop is designed specifically for state and federal law enforcement agencies, as well as military personnel, providing

a crucial opportunity to gain insights into the pressing issue of human trafficking. In our current societal landscape, this course is not just beneficial but essential for those tasked with combating these heinous crimes. Participants will have the privilege of learning from a distinguished Subject Matter Expert, renowned for his extensive knowledge and experience in the field. This instructor is not only an exceptional lecturer but also an active agent with real-world operational experience, ensuring that attendees receive practical, applicable knowledge that can enhance their effectiveness in the fight against human trafficking. The course promises to be a transformative experience, fostering a deeper understanding and equipping participants with the tools necessary to make a meaningful impact.

Don't miss this training opportunity. The number of participants is limited to 40. Contact us today in order to reserve your spot.

U.S. moves Patriot missile batteries from South Korea to Middle East

The move comes amid speculation over a potential military action against Iran's nuclear program and escalating bombardments of Iran-backed jihadists in Yemen.

American Patriot missile defense batteries will be moved from South Korea to the Middle East, according to reports in Asian media on Friday, amid speculation over a potential military action against Iran's nuclear program and escalating bombardments of Iran-backed jihadists in Yemen.

U.S. President Donald Trump threatened Iran on Sunday with bombing and secondary tariffs if Tehran did not come to an agreement with Washington over its nuclear program, and the United States has moved additional warplanes into the region.

Washington and Seoul have reportedly recently agreed on the "monthslong" partial deployment of the Patriot Advanced Capability-3, in what is understood to be the first known case involving the relocation of United States Forces Korea (USFK) assets to the Middle East.

Iran in recent years has largely dropped the pretense of enriching uranium for a civilian atomic energy program, as it's reportedly teetering on the nuclear precipice. Israel believes that a nuclear Iran represents a grave existential

threat, consistent with the exterminationist antisemitism of the Islamic Republic's anti-Israel rhetoric.

After the election of Trump, a known Iran hawk, the likelihood of an U.S.-Israeli attack on Iran's nuclear facilities has increased precipitously.

Within 48 hours IDF bomb and destroy 180 targets in Gaza

Watch: <https://www.youtube.com/watch?v=MdkU4GtPIS8>

A U.S. airstrike in Yemen reportedly killed Houthi intelligence chief Abdul Nasser Al-Kamali amid escalating tensions. Saudi news outlet Al-Hadath claimed the April 7-8 strikes targeted key Houthi positions, but neither the Houthis nor U.S. Central Command confirmed Kamali's death. The strikes are part of "Operation Rough Rider," a campaign launched by President Donald Trump to counter Houthi attacks on ships and allies in the region.
