Good afternoon,

The following are responses from the contract manager.

The answer to questions 1 & 3 are essentially the same. The contract is a 50/50 split between the City and the County so the City would be the other place to get a copy of the agreement as well as invoices, payments, etc. Each quarter the invoices are created and half the amount is paid by the City and the other by the County. The City has essentially the exact same contract from the scope of work perspective – though they have their own basic contract terms and conditions which are similar but vary slightly from the County's.

The only exception to this is the answer to question 2: The County provides additional financial support for the Neighbor to Neighbor program which is the low income solar program created as a part of the Solarize Asheville Buncombe campaign. The March payment that was referred to was support for this program.

Sincerely,

Ron Venturella, MSAC, CLGPO

Subject: Re: Web Contact: Procurement Question

Good Afternoon Mr. Venturella:

In the line itemized cost schedule, specifically verify the 1/2 of the contract amount was from Buncombe County. Was the other half from the City of Asheville, Duke Power, etc?

Who/What is the \$12k payment for a March 2023 payment?

Where can I obtain the other 50% of line items expenses, specifications for the other 50% of the contract.

Thank you in advance for your assistance in providing this information.

Thank you,

Dee Williams
